[The CPB Digital Kids Fund Will Award Money To Build Relevant And Safe Web-based Projects That Can Be Customized For Local Broadcasting Stations For Children Ages Nine To Twelve](#)

NRSC-1 audio standard, NRSC-2 emission standard, or both.

Also expected in early 1989 will be proposal on how to implement expanded AM band. Western Hemisphere countries on June 2, 1988, concluded second and final session of conference to plan use of 100 khz of spectrum added to AM band that had ended at 1605 khz. FCC has indicated that some channels will be reserved for national licensees but broadcasting organizations have favored allocating new band to daytimers in plan to reduce congestion in conventional band.

Despite opposition of National Association of Broadcasters, FCC voted Dec. 12, 1988, to give FM broadcasters greater flexibility in choosing antenna sites and plotting coverage

NAB and other broadcast groups oppose FCC's proposed expansion of service to allow for local origination by translators, asking that rules establish translators as secondary services to fill in underserved areas of full-power stations and not as "low-power FM" stations.

Antitrafficking

Issue essentially boils down to reimposition of FCC's three-year rule, which required owners to hold broadcast properties for that long before selling. Quiescent at moment.
